Sir , please solve following program ,which I am unable to solve. The program is : Write a program in java to accept two date in dd/mm/yyyy format and display the number of days in between them.

ISC Important Programs â€“ Guide For School

The negative of a positive integer is defined as a number that produces 0 when it is added to the corresponding positive integer. Negative numbers are usually written with a negative sign (a minus sign). As an example, the negative of 7 is written -7 , and $7 + (-7) = 0$. When the set of negative numbers is combined with the set of natural numbers (including 0), the result is defined as the set ...
