The Governmental Accounting Standards Board (GASB) is the source of generally accepted accounting principles (GAAP) used by state and local governments in the United States. As with most of the entities involved in creating GAAP in the United States, it is a private, non-governmental organization. The GASB is subject to oversight by the Financial Accounting Foundation (FAF), which selects the ...

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
