A measurement systems analysis (MSA) is a thorough assessment of a measurement process, and typically includes a specially designed experiment that seeks to identify the components of variation in that measurement process.. Just as processes that produce a product may vary, the process of obtaining measurements and data may also have variation and produce incorrect results.

Measurement system analysis - Wikipedia

The 2D Direct Parts Marking Guideline is a comprehensive document focused on current 2D symbology parts identification methods, the common needs of manufacturing and assembly locations and performance capabilities of various marking and scanning technologies.
