TECHNICAL REPORT 4556 FAULT TREE ANALYSIS . WALDEMARWA F. LARSEN

### **FAULT TREE ANALYSIS - Defense Technical Information Center**

In applied mathematics, topological data analysis (TDA) is an approach to the analysis of datasets using techniques from topology.Extraction of information from datasets that are high-dimensional, incomplete and noisy is generally challenging. TDA provides a general framework to analyze such data in a manner that is insensitive to the particular metric chosen and provides dimensionality ...

### **Topological data analysis - Wikipedia**

The goal of modal analysis in structural mechanics is to determine the natural mode shapes and frequencies of an object or structure during free vibration.It is common to use the finite element method (FEM) to perform this analysis because, like other calculations using the FEM, the object being analyzed can have arbitrary shape and the results of the calculations are acceptable.

### **Modal analysis using FEM - Wikipedia**
