Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. Many sociologists aim to conduct research that may be applied directly to social policy and ...

A recent development in the debate is the critical realist structure/agency perspective embodied in Roy Bhaskar's transformational model of social action (TMSA) which he later expanded into his concept of four-planar social being. A major difference between Giddens' structuration theory and the TMSA is that the TMSA includes a temporal element (time).
