What is Group B Strep? Group B Streptococcus (GBS) is a type of bacteria that can cause illness in people of all ages. In newborns, GBS is a major cause of meningitis (infection of the lining of the brain and spinal cord), pneumonia (infection of the lungs), and sepsis (infection of the blood) (CDC 1996; CDC 2005; CDC 2009).

If Only It Were Easy Let's face it: the Paleo Autoimmune Protocol is hard to do. If we could just take a test to identify our food intolerances, it would be so much easier! So, why don't we? Unfortunately, food intolerance testing is unreliable, giving both false positive and false negative results. An elimination diet (like the AIP) is the only accurate way to test for ...

FERMENTING AT HOME TAKE-AWAYS . The process of fermenting may seem overwhelming at first, but it's actually quite simple once you get the hang of things. Also, it's worth noting that homemade ferments generally have more than eight times the amount of probiotics as an entire bottle of store-bought supplements!

Due to the sensitivity of the subject, it is often preferable that mental health practitioners use the term behavioral health rather than mental illness. Furthermore, it is difficult for health practitioners to gain trust from their patients; therefore, mental health practitioners in Vietnam often use placebo medication to gain the trust of their patient and meet the patient's expectations.
