Applied behavior analysis (ABA) is a scientific discipline concerned with applying techniques based upon the principles of learning to change behavior of social significance. It is the applied form of behavior analysis; the other two forms are radical behaviorism (or the philosophy of the science) and the experimental analysis of behavior (or basic experimental research).

Applied behavior analysis - Wikipedia

Precursors of certain fundamental aspects of behaviour therapy have been identified in various ancient philosophical traditions, particularly Stoicism. For example, Wolpe and Lazarus wrote, While the modern behavior therapist deliberately applies principles of learning to this therapeutic operations, empirical behavior therapy is probably as old as civilization " if we consider civilization ...
