It is the goal of Maxi-Signal Products to provide you an easy to use catalog of signals, lighting and safety equipment. Every effort is made to keep current and make certain you are offered the highest quality and best value.

Maxi-Signal

Leading-edge technology enables us to develop a comprehensive, easy to use line of portable calibrators and calibration equipment.

Martel Electronics - For industrial process calibrators

ICW Polypropylene & Film Capacitors. We have been producing metallised film capacitors of the very highest quality since 1974. We offer an extensive catalogue of polypropylene and polyester dielectric components offering solutions in industrial drives, power conditioning, EMC filtering, aerospace, railway signalling, welding, induction heating, wind and solar energy to name but a few.

Polypropylene & Film capacitors for power electronics

Industrial engineering is a branch of engineering which deals with the optimization of complex processes, systems, or organizations. Industrial engineers work to eliminate waste of time, money, materials, person-hours, machine time, energy and other resources that do not generate value. According to the Institute of Industrial and Systems Engineers, they create engineering processes and ...

Industrial engineering - Wikipedia

An industrial robot is a robot system used for manufacturing. Industrial robots are automated, programmable and capable of movement on two or more axes. Typical applications of robots include welding, painting, assembly, pick and place for printed circuit boards, packaging and labeling, palletizing, product inspection, and testing; all accomplished with high endurance, speed, and precision.
