Chemplast is an ISO 9001:2008 certified plastic injection molder providing superior manufacturing options and turnkey solutions for diverse industries since 2000. As a specialist in injection molding, we offer a full array of services from product design and development, mold design, mold development and parts manufacturing for the US market.

### **Injection Molding Houston | Chemplast**

Molding or moulding (see spelling differences) is the process of manufacturing by shaping liquid or pliable raw material using a rigid frame called a mold or matrix. This itself may have been made using a pattern or model of the final object. A mold or mould is a hollowed-out block that is filled with a liquid or pliable material such as plastic, glass, metal, or ceramic raw material.
