The Curriculum Corner contains a complete ready-to-use curriculum for the high school physics classroom. This collection of pages comprise worksheets in PDF format that developmentally target key concepts and mathematics commonly covered in a high school physics curriculum.

Curriculum Corner - The Physics Classroom

Physics is the study of energy, forces, mechanics, waves, and the structure of atoms and the physical universe.

BBC Bitesize - GCSE Physics (Single Science)

AP Physics B was an Advanced Placement science course equivalent to a year-long introductory college course in physics. High school students studied Newtonian mechanics, electricity and magnetism, fluid mechanics, and thermal physics, waves and optics, and atomic and nuclear physics in preparation for a cumulative exam given each May. The course was non-calculus-based and involved algebra and ...

Mathematics and Music. The relationship between mathematics and music (vibrations / sound waves) is also well known, and in hindsight it is obvious that mathematics, maths physics, music (sound waves) and musical instruments exist because matter is a wave structure of Space. This is why all matter vibrates and has a resonant frequency.

The sound of a violin is the result of interactions between its many parts. Drawing a bow across the strings causes the strings to vibrate. This vibration is transmitted through the bridge and sound post to the body of the violin, which allows the sound to effectively radiate into the surrounding air.
