For many years our lab has studied moral judgment and decision making. More recently, we've expanded our research to address basic questions concerning the brain's infrastructure for complex thought. This new research on high-level cognition examines how concepts combine to form ideas, how ideas are represented and manipulated through reasoning, the representation of propositional ...

The nothing to hide argument states that government surveillance programs do not threaten privacy unless they uncover illegal activities, and that if they do uncover illegal activities, the person committing these activities does not have the right to keep them private. Hence, a person who favors this argument may state "I've got nothing to hide" and therefore does not express opposition to ...
