

### **physicalism the pdf**

Token physicalism is the proposition that "for every actual particular (object, event or process) x, there is some physical particular y such that  $x = y$ ".

### **Physicalism - Wikipedia**

Physicalism is the thesis that everything is physical, or as contemporary philosophers sometimes put it, that everything supervenes on the physical.

and state to next state. As before, each square encodes two conditionals specifying the output and next state given both the current state and input.

### **Functionalism encyclopedia article - nyu.edu**

Abstract and concrete are classifications that denote whether a term describes an object with a physical referent or one with no physical referents. They are most commonly used in philosophy and semantics. Abstract objects are sometimes called abstracta (sing. abstractum) and concrete objects are sometimes called concreta (sing. concretum). An abstract object is an object that does not exist at ...
