Digestive Disease Group is now offering the CRH Oâ€™Regan Systemâ€™. A simple, painless and effective way to treat hemorrhoids! Hemorrhoids are nothing to be embarrassed about â€” in fact, about 50% of the population will suffer from them by the age of 50.

Digestive Disease Group in SC | Top Gastroenterologist

Digestive system. Digestive systems take many forms. There is a fundamental distinction between internal and external digestion. External digestion developed earlier in evolutionary history, and most fungi still rely on it. In this process, enzymes are secreted into the environment surrounding the organism, where they break down an organic material, and some of the products diffuse back to the ...

The gastrointestinal tract (digestive tract, digestional tract, GI tract, GIT, gut, or alimentary canal) is an organ system within humans and other animals which takes in food, digests it to extract and absorb energy and nutrients, and expels the remaining waste as feces. The mouth, esophagus, stomach and intestines are part of the gastrointestinal tract.

Gastrointestinal tract - Wikipedia

Because other digestive problems, such as an infection of the duct, can produce symptoms similar to those of a gallstone attack, the doctor may also run other tests to determine if gallstones are in fact the culprit. The most common technique is an ultrasound exam. This quick, painless procedure uses high-frequency sound waves to create pictures of the gallbladder, bile duct, and their contents.
