method for design problems since it involves the search for truth rather than the search for an answer. 3) The Systems Approach. Three separate activities: problem definition, development of alternatives, and evaluation. Problem Definition Alternatives Evaluation Don't define problems as solutions; i.e. build a better mousetrap.

BASICS OF PROBLEM DEFINITION

How the Problem Differs From Other Parts of Research • A research problem is an educational issue or problem in the study. • A research topic is the broad subject matter being addressed in a study. • A purpose is the major intent or objective of the study. • Research questions are those that the researcher would like answered or addressed in the study.
