Plastic is material consisting of any of a wide range of synthetic or semi-synthetic organic compounds that are malleable and so can be molded into solid objects.. Plasticity is the general property of all materials which can deform irreversibly without breaking but, in the class of moldable polymers, this occurs to such a degree that their actual name derives from this specific ability.

Earlier this year, the realms of law and new media collided when Lori Drew was hit with federal charges for creating a fake MySpace page and harassing a neighboring teenager, who then committed suicide. In another case of courtrooms v. technology, prosecutors are reportedly searching Facebook and MySpace for photos of defendants to use as character evidence in sentencing hearings.
