

encyclopedia of smart materials pdf

Smart materials, called also intelligent or responsive materials , are designed materials that have one or more properties that can be significantly changed in a controlled fashion by external stimuli, such as stress, temperature, moisture, pH, electric or magnetic fields, light, or chemical compounds.

Smart material - Wikipedia

A smart card, chip card, or integrated circuit card (ICC), is any pocket-sized card that has embedded integrated circuits. Smart cards are typically made of plastic. Many smart cards include a pattern of metal contacts to electrically connect to the internal chip.
