A post and core crown is a type of dental restoration required where there is an inadequate amount of sound tooth tissue remaining to retain a conventional crown. A post is cemented into a prepared root canal, which retains a core restoration, which retains the final crown.. The role of the post is firstly to retain a core restoration and crown, and secondly to redistribute stresses down onto ...

Dental Reception Coordinator - Vancouver Community College

Traditionally, colleges and universities have focused solely on the knowledge that students should gain in higher education – the General Education Requirements. At Tunxis Community College we also focus on how students are able to apply the knowledge they have gained. We call this approach Ability Based Education (â€œABEâ€•). Consistent with the Connecticut Board of Regents for Higher ...
