Chapter 15: Financial Management and Accounting Systems

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

One simple way to understand bonds issued at a premium is to view the accounting relative to counting
money! If Schultz issues 100 of the 8%, 5-year bonds when the market rate of interest is only 6%, then the
cash received is \$108,530 (see the previous calculations).
