

getting started with django pdf

I like to create my views for ajax as if using a traditional form post. So the view would check for a post action and create an instance of a django model form with the data.

Getting Started with AJAX in Django: a Simple jQuery

Outputting PDFs with Django. This document explains how to output PDF files dynamically using Django views. This is made possible by the excellent, open-source ReportLab Python PDF library.. The advantage of generating PDF files dynamically is that you can create customized PDFs for different purposes – say, for different users or different pieces of content.

Outputting PDFs with Django | Django documentation | Django

Django at a glance. Because Django was developed in a fast-paced newsroom environment, it was designed to make common Web-development tasks fast and easy.
