AFAIK, there is no direct F5 like in Visual Studio to jump to the next breakpoint without cursor pointing. The closest is the ALT+F9 that jumps to the cursor.. For quick reference, the most used debugging keyboard shortcuts are:

### debugging - How to jump to next break point in IntelliJ

What is the Early Access Program (EAP)? We at JetBrains believe that making tools for developers should greatly involve listening to developers. Our Early Access Programs let the development community closely participate in discussions about the product and influence development planning, from early stages onwards.
