The Finance Department is engaged in award-winning research and teaching on financial markets and institutions, as well as the financial decisions of firms, individuals, and governments.

Finance Department | Kellogg School of Management

The economics of global warming concerns the economic aspects of global warming; this can inform policies that governments might consider in response. A number of factors make this a difficult problem from both economic and political perspectives: it is a long-term, intergenerational problem; benefits and costs are distributed unequally both within and across countries; and scientific and ...
