Modern history, the modern period or the modern era, is the linear, global, historiographical approach to the time frame after post-classical history. This view stands in contrast to the "organic," or non-linear, view of history first put forward by the renowned philosopher and historian, Oswald Spengler, early in the 20th century. Modern history can be further broken down into periods:

Evolutionary medicine or Darwinian medicine is the application of modern evolutionary theory to understanding health and disease. Modern medical research and practice have focused on the molecular and physiological mechanisms underlying health and disease, while evolutionary medicine focuses on the question of why evolution has shaped these mechanisms in ways that may leave us susceptible to ...
