Category:Food additives - Wikipedia

Food additives are substances added to food to preserve flavor or enhance its taste, appearance, or other qualities. Some additives have been used for centuries; for example, preserving food by pickling (with vinegar), salting, as with bacon, preserving sweets or using sulfur dioxide as with wines.

Food additive - Wikipedia

1. Historical background. In 1947, then Ministry of Health and Welfare (the present Ministry of Health, Labour and Welfare (MHLW)) enacted the Food Sanitation Act (FSA) as the first comprehensive Act for food safety/hygiene, and introduced a positive list system for food additives.
