Wireless Personal Communications - incl. option to publish

At the most basic level, Personal Communications Service (PCS) describes a set of communications capabilities which allows some combination of terminal mobility, personal mobility, and service profile management. More specifically, PCS refers to any of several types of wireless voice or wireless data communications systems, typically incorporating digital technology, providing services similar ...

Personal Communications Service - Wikipedia

Cable & Wireless Communications Ltd was a British multinational telecommunications company headquartered in London, United Kingdom with operations in Pan-America (the Caribbean and Central America). It was formed when Cable & Wireless plc demerged in 2010 to form two companies (the other being Cable & Wireless Worldwide plc).. The company used to operate under a number of brands, including ...

Cable & Wireless Communications - Wikipedia

The number of 911 calls placed by people using wireless phones has significantly increased in recent years. It is estimated that about 70 percent of 911 calls are placed from wireless phones, and that percentage is growing. For many Americans, the ability to call 911 for help in an emergency is one of the main reasons they own a wireless phone.
