AkzoNobel Powder Coatings A global leader in powder coatings manufacture and technology

AkzoNobel Powder Coatings

Powder Coating is the only technical publication devoted to the powder coating industry and other green finishing technologies. Articles provide up-to-date information about the powder coating process, including surface preparation, materials handling, powder coatings, raw materials, application and recovery equipment, curing equipment, and ...

Powder Coating Magazine

Hentzen Coatings. A reputation built on solving problems. For custom-engineered coatings that have to perform, military, aerospace and countless general industrial manufacturers put their trust in Hentzen Coatings.

Hentzen Coatings

All Market Spec Selector. Regardless of the coating type you need, chemistry or color, Hentzen has solutions in both stock or custom configurations.

Smokeless powder is the name given to a number of propellants used in firearms and artillery that produce negligible smoke when fired, unlike the black powder they replaced. . The term is unique to the United States and is generally not used in other English-speaking countries, which initially used proprietary names such as "Ballistite" and ...

One of the many advantages powder coating has over wet paint is the variety of ways you can fine-tune and rework a powder coated finish. This article discusses some of the different touch-up techniques you can use to clean up your work and get the best overall quality for your powder coating projects.

Tips For Touching-Up A Powder Coated Finish

The luminescence of a class of bismuth heterocycles, termed bismoles, was studied via ultrafast laser spectroscopy in conjunction with TD-DFT computations to determine why phosphorescence is observed for some bismoles but not others.

Inorganic Chemistry (ACS Publications)

Asian Journal of Research in Chemistry (AJRC) (ISSN: print-0974-4169, Online-0974-4150) is an international, peer-reviewed journal devoted to pure and applied chemistry.
