How good is your company at problem solving? Probably quite good, if your managers are like those at the companies I've studied. What they struggle with, it turns out, is not solving problems but figuring out what the problems are.

### Are You Solving the Right Problems? - Ideas and Advice for

The P versus NP problem is a major unsolved problem in computer science. It asks whether every problem whose solution can be quickly verified (technically, verified in polynomial time) can also be solved quickly (again, in polynomial time).. The underlying issues were first discussed in the 1950s, in letters from John Forbes Nash Jr. to the National Security Agency, and from Kurt Gödel to John ...

In the movie Good Will Hunting, Matt Damon's character solves a difficult math problem, proving that he's more than just the janitor at MIT. But what was the problem, and how did he solve it? Was it as hard as the movie made it out to be? In this video, Dr. James Grime explains, and proceeds to draw the solution from memory. Enjoy:
