

### **psychology and life 19th pdf**

This article is a general timeline of psychology. A more general description of the development of the subject of psychology can be found in the History of psychology article.

### **Timeline of psychology - Wikipedia**

Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest.
