A trade route is a logistical network identified as a series of pathways and stoppages used for the commercial transport of cargo. The term can also be used to refer to trade over bodies of water. Allowing goods to reach distant markets, a single trade route contains long distance arteries, which may further be connected to smaller networks of commercial and noncommercial transportation routes.

The Star Trek (first broadcast 1966) universe equivalent of hyperspace is known as subspace. Although similar in concept to hyperspace, subspace plays a slightly different role in FTL travel. Subspace exists in layers, all of which are "below" normal three-dimensional spacetime much like the different layers of a cake. When a starship is traveling at FTL speeds (commonly known as "warp" in the ...

Aryan trade is intimately tied to Aryan history, migration and the grouping of the sixteen Avestan Vendidad nations. Understanding the nature of the trade also helps us to develop a better understanding of Aryan Homeland, Airyana Vaeja's possible location. Trading required the development of a very special infrastructure, such as roads, bridges, and inns; it required manufacturing and craft ...
