So the other day, EMC wanted to verify that all luns on my ESX host were using the same Lun Policy as a result of an open ticket that I had with them. To do that, I decided to use the PowerCLI toolkit. This is what I came up with. [crayon-5b7263b9a60c5485896747/] The following two tabs [â€]

List Hostname, Lun Name, Lun Policy, and Path State using

Mexico has two equivalents as well. In one they are called brujas (witches), folklore explains will-o-the-wisp to be witches who transformed into these lights. The reason for this, however, varies according to the region. Another explanation refers to the lights as indicators to places where gold or hidden treasures are buried which can be found only with the help of children, in this one they ...
