Lucas's cognitive development in the area of language has a lot to do with the fact he is inquisitive and seems to enjoy learning. According to Goben (2002) and his developmental checklist a four year old should be able to count and should be drawn to letters and sounds.

### **Lucas A Case Study about Child Development**

Piaget (1936) was the first psychologist to make a systematic study of cognitive development. His contributions include a stage theory of child cognitive development, detailed observational studies of cognition in children, and a series of simple but ingenious tests to reveal different cognitive abilities.
