Quantum Leap is an American science-fiction television series that originally aired on NBC for five seasons, from March 1989 through May 1993. Created by Donald P. Bellisario, it starred Scott Bakula as Dr. Sam Beckett, a physicist who leaps through spacetime during an experiment in time travel, by temporarily taking the place of other people to correct historical mistakes.

The study, "Finding low-energy conformations of lattice protein models by quantum annealing," is published in a recent issue of Nature's Scientific Reports.. The computer used quantum annealing to find the lowest-energy protein configuration by solving for the configuration as an optimization problem, where the optimal state was the lowest-energy state.

Quantum entanglement is a phenomenon that connects two particles (for example, photons) in such a way that changes to one of the particles are reflected instantly in the other, even if they are light-years apart. "Despite the enormous success of quantum mechanics, its completeness is experimentally still unproven after more than 75 years," said Dr Alessandro Fedrizzi (now in UQ's School of ...

“Can you give me a simple, concrete explanation of how quantum computers work?” I’ve been asked this question a lot. I worked on quantum computing full time for 12 years, wrote 60 or so papers, and co-authored the standard text. But for many years the question stumped me.

A new psychological theory holds that human beings exist at different “levels of existence.” At any given level, an individual exhibits the behavior and values characteristic of people at that level; a person who is centralized at a lower level cannot even understand people who are at a higher level.

This study originally arose out of an e-mail discussion with Rafael Capurro at the artefactphil discussion group in 1999. I am therefore indebted to him for important impulses. Cf. Rafael Capurro's analogous article Beitrage zu einer digitalen Ontologie (Contribution to a Digital Ontology), from which the present study deviates considerably in both content and scope of presentation.
