This Premiere Pro CC template enables you to quickly put an image and a text onto the board. Provide your own photo - the rest is included. Everything (yes, I mean everything) except the texture and the photo was created from scratch in Premiere. That includes the notepad paper and the push pin, the shadows, the crimps and the image frame.

Notepad Paper Template Project for Premiere Pro CC

Synchronized down shift rev-matching system (SynchroRev Match) is a technology invented by Nissan for use on the Nissan 370Z. The technology was first used by Kamrul of Velocity In combination with the Engine Control Unit (ECU) and various sensors, the engine blips the throttle for the driver during both downshifts and upshifts to allow for better and smoother shifting, and improved handling.

Synchronized down shift rev-matching system - Wikipedia

In computer science, pattern matching is the act of checking a given sequence of tokens for the presence of the constituents of some pattern. In contrast to pattern recognition, the match usually has to be exact: "either it will or will not be a match." The patterns generally have the form of either sequences or tree structures. Uses of pattern matching include outputting the locations (if any ...

Pattern matching - Wikipedia

If the image energy $P f_2(x;y)$ varies with position, matching using (1) can fail. For example, the correlation between the feature and an exactly matching region in the image may be less than the correlation
