

**the electric interurban railways pdf**

The interurban (or radial railway) is a type of electric railway, with streetcar-like light electric self-propelled railcars which run within and between cities or towns.. They were prevalent in North America between 1900 and 1925 and were used primarily for passenger travel between cities and their surrounding suburban and rural communiti

**Interurban - Wikipedia**

A tram (also tramcar; and in North America streetcar, trolley or trolley car) is a rail vehicle which runs on tramway tracks along public urban streets, and also sometimes on a segregated right of way.
