Renaissance Astrology and Magic Books

Western or European astrology originated in Babylonia and Chaldea around 2,000 B.C. The planets were equated to gods and celestial events observed for omens. Most cultures observe heavenly omens, but Babylonian religion was particularly astral based and by 1,500 B.C. had collected systematic observations of Venus and other planets.

Astrology is the study of the movements and relative positions of celestial objects as a means for divining information about human affairs and terrestrial events. Astrology has been dated to at least the 2nd millennium BCE, and has its roots in calendrical systems used to predict seasonal shifts and to interpret celestial cycles as signs of divine communications.

During the high medieval period, the Islamic world was at its cultural peak, supplying information and ideas to Europe, via Andalusia, Sicily and the Crusader kingdoms in the Levant. These included Latin translations of the Greek Classics and of Arabic texts in astronomy, mathematics, science, and medicine. Other contributions included technological and scientific innovations via the Silk Road ...
