THE SCIENCE OF MIND - Law of attraction

Although research suggests that the supervisory and feedback systems in place in many districts do little to systematically enhance teacher expertise (Toch & Rothman, 2008; Weisberg, Sexton, Mulhern, & Keeling, 2009), fortunately we can develop expertise through deliberate practice (Ericsson, Krampe ...

Science and Engineering Practices describe what scientists do to investigate the natural world and what engineers do to design and build systems.

Next Generation Science Standards

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

A global warming conspiracy theory invokes claims that the scientific consensus on global warming is based on conspiracies to produce manipulated data or suppress dissent. It is one of a number of tactics used in climate change denial to legitimize political and public controversy disputing this consensus. Global warming conspiracy theorists typically allege that, through worldwide acts of ...
