

### **the vampire in nineteenth pdf**

Senf's analysis of vampire figures and metaphors is exhaustive. She achieves new insights concerning social and feminist issues in genre fiction like "Carmilla" and Dracula and new interpretations of major nineteenth-century novels, showing how writers of fiction skillfully used the figure of the vampire to depict the position of woman. Occasional lapses distract the reader from Senf's illuminating discussions.

### **Project MUSE - The Vampire in Nineteenth-Century English**

Across the world, the rise of vampire hysteria was accompanied by the practice of vampire hunts. The earliest record of vampire hunters can be found in Roman history: "In ancient Rome a college of clairvoyant priests was established for the training of the first ghostbusters in the war against vampirism" (Rickels 10).

### **The Evolution of the Vampire in Fiction and Popular Culture**

Carol A. Senf traces the vampire's evolution from folklore to twentieth-century popular culture and explains why this creature became such an important metaphor in Victorian England.
