The over-arching presumption in modern science and philosophy is that consciousness emerges from complex synaptic computation in networks of brain neurons acting as fundamental information units.

Consciousness in the universe: A review of the "Orch OR

Time is the indefinite continued progress of existence and events that occur in apparently irreversible succession from the past through the present to the future. Time is a component quantity of various measurements used to sequence events, to compare the duration of events or the intervals between them, and to quantify rates of change of quantities in material reality or in the conscious ...

Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. Many sociologists aim to conduct research that may be applied directly to social policy and ...

Reiki is a form of healing which rests on the assumption that some form of energy determines our health. In this context, I tend to put energy in inverted commas because it is not the energy a physicist might have in mind. It is a much more mystical entity, a form of vitality that is supposed ...

Reiki: neither plausible, nor effective, nor harmless

On Thursday 4th October 2018, we will be holding the British Engineering Excellence Awards (BEEAs) ceremony at etc.venues, County Hall, Central London - hosted by writer, broadcaster and qualified doctor, Kevin Fong.. Situated on the Southbank of the Thames, etc.venues County Hall has an enviable location next to The London Eye with breathtaking views over The Houses of Parliament & Big Ben ...
